CFO BRIEFING

Overtime cost rose through August

Six months of HCM exports reconciled across attendance, approvals and payroll

OVERTIME PAID COST, APR

PKR 2.81m

Payroll OVERTIME earning lines

OVERTIME PAID COST, AUG

PKR 3.57m

26.7% above April

FLAGGED DEPARTMENT-MONTHS

6

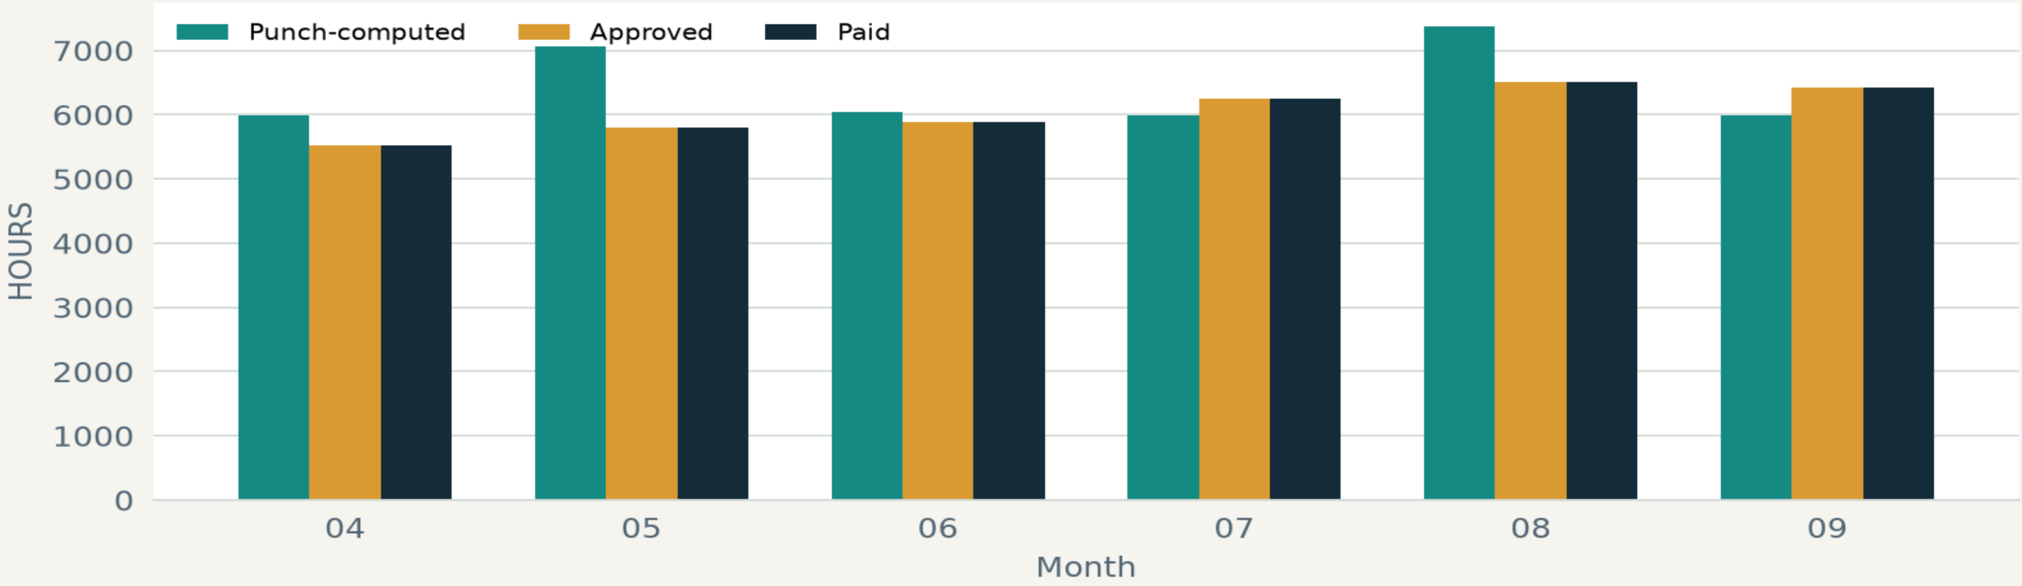
Paid OT >15% above punch-computed

The increase was concentrated: Faisalabad Plant / Stitching added PKR 433,166, 57.6% of the April-August net rise. Across the company, paid hours rose 17.9% and average payout per OT hour rose 7.5%. September eased. Six department-months exceed the 15% punch comparison; investigate before calling these overpayments.

OVERTIME

Paid hours climbed 18% from April to August

Group comparison uses shift punches, approved requests and payroll OVERTIME units



Paid overtime moved from 5,526 hours in April to 6,513 in August (17.9%). Approved hours and paid hours reconcile in every month; the unresolved gap is between requests/payroll and the time actually recorded at the clock.

OVERTIME CONTROL

Six department-months cross the 15% threshold

The largest variance is Faisalabad Stitching in September

MONTH	PLANT / DEPARTMENT	PUNCH HOURS	PAID HOURS	GAP
2026-09	**Faisalabad Plant / Stitching**	**775.5**	**1,778.5**	**+129.3%**
2026-07	Faisalabad Plant / Stitching	782.0	1,440.5	+84.2%
2026-06	Faisalabad Plant / Stitching	667.0	1,122.0	+68.2%
2026-08	Faisalabad Plant / Stitching	1,013.5	1,548.5	+52.8%
2026-04	Faisalabad Plant / Warehouse	78.0	106.5	+36.5%
2026-04	Korangi Plant / Maintenance	121.0	154.0	+27.3%

For 2026-09, Stitching paid 1,778.5 hours against 775.5 computed from punches. Review approved request detail, shift pairing and payroll cutoff before changing policy.

Review exceptions before calling them overpayments

Attendance and separation dates identify records for investigation; they do not prove an error by themselves

AFTER SEPARATION

21

employee-months / 5 people

PKR 1.95m in earnings appear in payroll months after recorded separation months.

PAID, NO PRESENT DAY

59

employee-months / 13 people

PKR 4.83m in earnings. Includes cases that may reflect approved leave, missing punches, or final settlements.

Annual leave check: 20 employees have approved Annual leave days in April-September above the full-year entitlement recorded in Core HR.

DATA QUALITY

The numbers reconcile back to the source exports

Raw tables preserve every source row; transformations and rejected records are visible

RAW ROWS

472,907

12 files, row counts match source

DQ CHECKS

33/33

All recorded checks passed

PUNCHES REJECTED

6,962

Unmapped device users parked with reason

Punch reconciliation: 322,143 mapped and deduplicated punches + 16,175 duplicate punches removed + 6,962 unmapped punches = 345,280 raw events.

Device diagnosis: DEV-SITE-01 first-punch residuals were +56, +57 and +56 minutes in July, August and September. Applying -60 minutes reduced them to -4, -3 and -4 minutes. April-June showed no such shift.

The remaining comparison uses approved request hours, paid OVERTIME units, and rounded punch time after the documented 10-minute grace period.

RECOMMENDED ACTIONS

Start with the six flagged month-end reconciliations

Use the evidence queries to assign owners and close exceptions

01

Workforce + Payroll

Reconcile the six >15% department-month gaps against approved request IDs and source punches. Start with Faisalabad Stitching, September.

02

Payroll + HR Operations

Review the five employees paid after separation and confirm final-settlement dates, payroll cutoff and reversal status.

03

Plant HR + Attendance

Review the 13 employees with pay but no Present day. Resolve leave, missing-punch corrections and payroll exceptions before classifying any amount as leakage.

Evidence: q05-q08 SQL and CSV files in analytics/. Review the variance with the shift owner before changing the overtime budget.
